

Imerys further expands in calcium carbonates in Brazil

Imerys has completed the acquisition of some assets of the EDK company, a leading producer of Ground Calcium Carbonates (GCC) in Brazil. These assets, which include 3 operating plants and 100 employees, generated annual revenues of BRL 65 million in 2018.

With this deal, Imerys, a global leader in Carbonates and long established in South America, broadens its footprint in the region and strengthens its product portfolio for the paints and coatings applications. The operation will increase Imerys revenue in Brazil to ca. €140 million.

This business has been consolidated in the Performance Minerals Americas business area since November 1st, 2019.

***The world leader in mineral-based specialty solutions for industry**, with €4.6 billion revenue and 18,000 employees, Imerys delivers high value-added, functional solutions to diversified set of industrial sectors, from processing industries to consumer goods. The Group draws on its knowledge of applications, technological expertise and its material science know-how to deliver solutions based on beneficiation of its mineral resources, synthetic minerals and formulations.
